

Keep Up the Good Work!

For the past three years our Carkeek Park Advisory Council Trails Committee volunteers have been improving the trails in Carkeek Park. We will soon reach our goal of having improved all the main trails in the park.

Adopt–A–Trail!

We are looking for volunteers who will each adopt a section of trail, to maintain the improvements that we have achieved.

Perhaps you as a neighbor of the park use the trails. Perhaps you would like to have an outdoor activity that lets you contribute to the community and enjoy the beauty of the woods.

If you are interested in helping keep the trails in good shape we welcome your participation as a trail adopter.

The Trails Committee Will Provide:

- Training
- Tools
- Guidelines
- Consulting

The Adopt-A-Trail Volunteer Will:

- Cut vegetation that grows into the trail corridor in the summer
- Rake leaves in the fall
- Pick up litter periodically
- Monitor and report trail maintenance needs, using the guidelines provided

Your time commitment would be moderate – 4 times a year. If you already regularly use a section of trail, litter pickup and monitoring would just be a part of your regular use.
